ABOUT

Product-minded engineer who builds automation-first systems that scale, including API integrations, scheduling pipelines, and analytics dashboards. Scaled a subscription direct-to-consumer platform to 200k+ followers with zero paid acquisition, achieving a six-figure run rate, and now focused on bringing that execution to legal AI.

EXPERIENCE

Independent iOS Developer & Automation Engineer
2024 – Present
Self-Employed, Melbourne

- Published 16+ iOS apps, automating the full pipeline: development, testing, screenshot generation, and App Store submission
- Built an autonomous coding agent that runs unattended development loops with continuous integration, circuit breaker patterns, and 452+ automated tests
- Monetized app portfolio with steadily growing revenue through subscription optimization and iterative product improvements
- Leveraged Twitter (X) for organic distribution, audience building, and real-time product feedback loops

Platform Growth & Automation
2024 – Present
Self-Employed, Melbourne

- Scaled a subscription direct-to-consumer platform to 200k+ followers using automation pipelines, API integrations, and data-driven distribution
- Built analytics dashboards and scheduling systems with zero paid acquisition
- Used Twitter (X) as a primary growth channel, building engagement through automated content pipelines and community interaction

Legal Administration & Document Automation
Feb – May 2024
Longton Legal, Sydney

- Automated legal document workflows via SharePoint, reducing filing overhead
- Maintained ongoing client communications and supported relationship management across active matters

Legal Intern / HSE Specialist / Vacation Student
Aug 2019 – Jul 2023
Peabody Energy, Brisbane

- Developed Python ML classifier for legal document categorization, significantly reducing manual review time
- Automated compliance reporting with Power Automate, saving 15+ hours per review

Workforce Transformation Consultant
Nov 2021 – Apr 2022
Deloitte, Canberra

- Supported governance for project management on Defence workforce capability programs
- Delivered strategic recommendations and stakeholder presentations to senior leadership

NDIA Reporting Consultant
May – Oct 2021
SDA Services, Brisbane

- Prepared regulatory compliance reports for NDIA-funded disability housing projects
